WHO WE ARE

Rick Li founded **high Efficiency Cooling & Heating Inc.** in 2005 out of a passion for customer service and a desire to deliver promises made to customers. Since then, we have grown to become one of the most reputable cooling and heating service providers in the GTA. We work hard to meet and exceed our customers' expectations.

We promise to respond to any service request within 4 hours **(yes, we work 24/7)**, supported by our dedicated customer service team.

We service all kinds of commercial equipment from any brand, including boiler, rooftop, air handler, condo suite unit, WSHP, PTAC, package unit, fan coil, etc.

PROFESSIONAL SERVICE **YOU CAN TRUST!**

PREVENTIVE MAINTENANCE

Keep your HVAC system at peak performance and save money and stress due to costly emergency service calls. In addition, prevent the risk of damage that demands expensive repairs from water leakage and flooding, especially for commercial and condo HVAC systems and ductless AC.

FLOODING AND WATER LEAKAGE SOLUTIONS

We provide solutions for water leakage detection for individual condo suites as well as whole properties. No installation is needed. The device alerts your phone in case of leaks, unusual water usage, power outages, and humidity, even when you have no power or internet connection.

REPAIR

We are long-termism. We believe that we can win when we put the customer's interests first. Therefore, we don't push for unnecessary repair or unit replacement. Instead, we give customers our honest and professional recommendations.

INSTALLATION

We understand that the quality of installation is the most significant variable in the long-term reliability of the HVAC equipment. Therefore, we only recommend the most suitable equipment and install it professionally.

WHY WORK WITH US

We pride ourselves on delivering a top-tier customer experience and treating our customers, suppliers, and employees with integrity, fairness, and respect. We have insurance coverage to work on high-rise buildings and all our employees are covered with WSIB.

PROFESSIONAL SERVICE YOU CAN TRUST!

✓ EXPERIENCE

Our experienced technicians can repair any type of cooling and heating system by any manufacturer used in condos and commercial and residential properties.

✓ KNOWLEDGE

Our technicians have the industry's highest level of certifications: GAS G1 and NATE.

✓ REPUTATION

We pride ourselves on being the Carrier President Award winners and have earned over 1,000 online reviews.

✓ EFFICIENCY

Our advanced computer system enables the whole company to work together efficiently. Every service and process is documented in the system and can be accessed anytime, anywhere.

RECENT PROJECT

ANOTHER 6 ROOFTOP UNITS PROJECT FOR A CHURCH IN SCAR

Recently, we proudly assisted the Toronto Chinese Methodist Church in Scarborough, installing six energy-efficient Carrier RTUs to replace their 25-year-old Carrier RTUs. As HVAC experts, we understand the importance of efficiency and cost-effectiveness. Replacing RTUs with increasing repair and maintenance costs as the units age is more cost-efficient. RTUs are also more efficient in providing heating, cooling and ventilation in an integrated system, optimizing energy usage and reducing operating costs. As your HVAC solutions provider, we are committed to excellence, delivering quality services and enriching community spaces.

For all your commercial HVAC needs, our team is here to help. Whether you have questions about our services, need maintenance support, or want to discuss a custom solution for your business, please get in touch. We specialize in serving commercial spaces, ensuring they remain comfortable for everyone who visits. Our dedicated experts are ready to provide the highest level of service. We look forward to serving you!
